

NEGATIVE SPACE ART IN RESPONSE TO THE ECLIPSE

Using the inspiration of the eclipse, where the moon will obscure the space of the sun to our eyes, create negative space art. Here's three pathways:

- Interested in understanding what negative space in art means and one idea for how to create a negative space artwork? Check out this video:
<https://www.youtube.com/watch?app=desktop&v=B-wYU1LJe00>
- Collaborative Art: Build a collaborative negative space quilt that focuses on the open or empty spaces as well as the positives (similar to cutting a silhouette or a paper snowflake, you can use black and white paper, cut out designs on the black and layer it over the white layer.) You can combine your square with others to make a quilt.
- Using black paper, cut it into a circle. And then, try writing on black paper with white writing materials.
